This is to certify that Shashikant B, 10th semester student of department of Architecture, School of planning and architecture, Mysore, has worked as an Architectural intern in our firm from 2nd February 2023 to 05th June 2023.

Shashikant has been involved all phases of the documentation, design and design development process of our on-going projects. His design skills and material sensitivity, technical abilities and office management skills are good, and he was able to fill the shoes of a project architect for the under construction residential project with much confidence.

I feel confident in saying that he is capable of handling architectural design and detailing with insight to the project.

All the best for his future endeavours.

Best Regards,

Chandrakant S Kanthigavi
Founder and Principal architect

COA No. 2005-35997
