**INCLUSIVISION  
PHOTOGRAPHY TROPHY**

**"If I like a moment, for me personally, I don't like to have the distraction of the camera. I just want to stay in it."**

Balancing the essence of a moment through the lens and allowing the soul to fully engage with and experience the emotions of the frame, envision photography that transcends the conventional realms of visual storytelling. It is a journey that challenges them to push the boundaries of their craft, marrying the science and art of photography to create visual narratives that resonate deeply with the notion of belonging.

In the realm of architectural photography, capturing the essence of a moment through the lens is an art form, but it goes beyond just documenting buildings. Inclusivision invites a journey where the soul is allowed to fully engage with and experience the emotions.
